Monday, September 11

8:00 am – 8:30 am	Breakfast
8:30 am – 10:00 am	Introductions and Hot Topics Roundtable <i>All attendees are asked to complete the pre-work and come with a “hot topic” to discuss. What’s your big challenge right now?</i>
10:00 am – 10:30 am	Break
10:30 am – 12:00 pm	Perspectives on Cybersecurity Trends and Resources from Carnegie Mellon University <i>Ole Villadsen (Carnegie Mellon University Libraries)</i> This presentation will leave attendees with a firm understanding and appreciation for key trends in cybersecurity, authoritative resources for cybersecurity information and research, and the information security programs and research projects at Carnegie Mellon University. Mr. Villadsen will begin with an overview of the latest developments in cybersecurity to include cyber threats and attacks, means for defense, and government legislation. The presentation will then shift to cover reliable and respected resources for cybersecurity news, trends, and research used throughout academia and industry. Finally, the speaker will provide a roundup of the key programs and research projects at CMU that are shaping cybersecurity and enabling our information security workforce.
12:00 pm – 1:00 pm	Lunch
1:00 pm – 2:00 pm	Clouding (Roundtable) Understand the trends, challenges and what research organizations should consider while moving to Cloud (e.g. federal regulations on cloud). Discuss risks vs benefits, and talk about how to reverse from Cloud back to on premise. Facilitator: Sunil Sasidharan (PPG Industries)
2:00 pm – 3:00 pm	Enterprise Repository Systems (Roundtable)

	<p>Review enterprise repository systems and other internal collections. Discuss systems and processes, as well as metrics. An example will be provided of a modification of an internal report database project that is still in development, with new security features using Sharepoint 2016 and Foxit Reader with Rights Management Services.</p> <p>Facilitators: Denise Callihan (PPG Industries), Amy Watson (PPG Industries)</p>
